NeuroStat Baseline Adherence Report, September 2028

Doc. NS-CA-BL-ADH-2028-09 · 3 October 2028

Classification: Internal

Adherence to the monthly NeuroStat Baseline assessment, Ødemark A crew, September 2028.

Measure	Value
Crew eligible for assessment	50
Sessions completed	46
Adherence	92 %
Sessions repeated because of technical problems	3
Crew who declined	1

Observations

- Adherence is in line with August (94 %). Two missed sessions were due to shift conflicts.
- Median completion time was 17 minutes. No tablet failures were reported.
- Individual results are filed separately and are available only to the installation medic.

Next assessment: week of 23 October 2028.
