NEUROSTAT BASELINE

1 · TITLE		2 · DOCUMENT NO.	
NeuroStat Baseline: Guide for Medics, v2.3		**NS-CA-BL-GDE-v2.3**	
3 · VERSION	4 · DATE	5 · FOR	6 · SESSION
2.3	12 JUN 2028	Installation medics	About 17 minutes

1 BEFORE THE SESSION

- Charge the tablet and check that the clock is correct. The session takes about 17 minutes.
- Choose a quiet room. The crew member sits down and has water at hand.
- Explain that the test is not an assessment of fitness for work.

2 DURING THE SESSION

1. Sign the crew member in with the crew number. Do not enter the name.
2. Start the monthly assessment. The tablet guides the crew member through the tasks.
3. Stay in the room but do not help with the answers.
4. If a task fails because of a technical problem, repeat the session on the same day.

3 AFTER THE SESSION

- The tablet stores the result encrypted. Individual results are available only to the installation medic.
- File the monthly summary in the portal under Monthly assessments, and send the adherence figures to the Office of Clinical Affairs after the last session of the month.
- A crew member who declines is recorded as declined. No reason is needed.
