1 WHO IS RESPONSIBLE

NeuroStat Holding AG, Thurgauerstrasse 66, 8050 Zürich, is responsible for the data collected in BOREAS-2. The data protection contact is privacy@neurostat.com.

2 WHAT IS COLLECTED

- Answers and measurements from the weekly checks, and the results of the computer tests on the tablet.
- Sleep data from the wrist sensor.
- Information about side effects. Your name and date of birth are held only by the installation medic and are not sent to NeuroStat.

3 WHO CAN SEE IT

Your study data carry a code, not your name. NeuroStat, the authorities and the monitors of the study can see coded data. Your employer is not told whether you take part and does not receive your data.

4 HOW LONG IT IS KEPT

Coded data are kept for as long as the law requires for clinical studies. The key linking the code to your name stays with the installation medic and is destroyed when the study has ended and the retention period for it has passed.

5 YOUR RIGHTS

You can ask to see your data, ask for mistakes to be corrected, and withdraw from the study at any time. Data collected before you withdraw can still be used. Ask the medic, or write to privacy@neurostat.com.
