Winter Staffing Review 2028/29: Ødemark A

Doc. NS-CFO-HR-2028-10 · 5 October 2028

Classification: Internal, management

Basis: personnel on board (POB) planning for winter 2028/29, Ødemark A.

Function	Normal rotation	Winter plan	Change
Operations and control room	12	12	0
Maintenance (mechanical, electrical, instrument)	16	16	0
Marine and deck	9	9	0
Catering and cabin services	6	6	0
Medical and radio	2	2	0
Management and HSE	5	5	0
Total	50	50	0

Findings

- Winter manning is unchanged. The full season on board makes it important to avoid vacancies in medical, radio and catering functions.
- Four offshore vacancies for winter 2028/29 have been filled. Recruitment for summer 2029 starts in January.
- Overtime is expected to rise in January and February. A forecast is included in the cost review.

Recommendation

Maintain the winter plan as it is. Review again after the first crew-health check in early December.
